FLOOR MAT FIXATION

Binder FlomaFix® & Binder SoloHook®

Invisible floor mat fixation solutions

binder

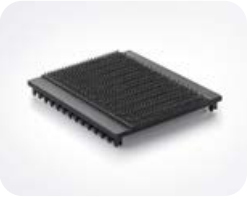

Binder FlomaFix® solutions

The Binder FlomaFix® product family provides a reliable, versatile fastening solution for floor mats across a wide range of applications. Combining discreet hook-and-loop technology with long-term tested durability, it ensures secure, invisible fixation.

Available in both mechanical and welded variants, Binder FlomaFix® adapts flexibly to customer requirements. Its universal design allows easy integration and enables quick, safe mat repositioning for efficient cleaning and maintenance.

Welded repair solution

Fully welded solution

One-component low-profile solution

Two-component low-profile solution

Anchor repair solution

Binder SoloHook® solution

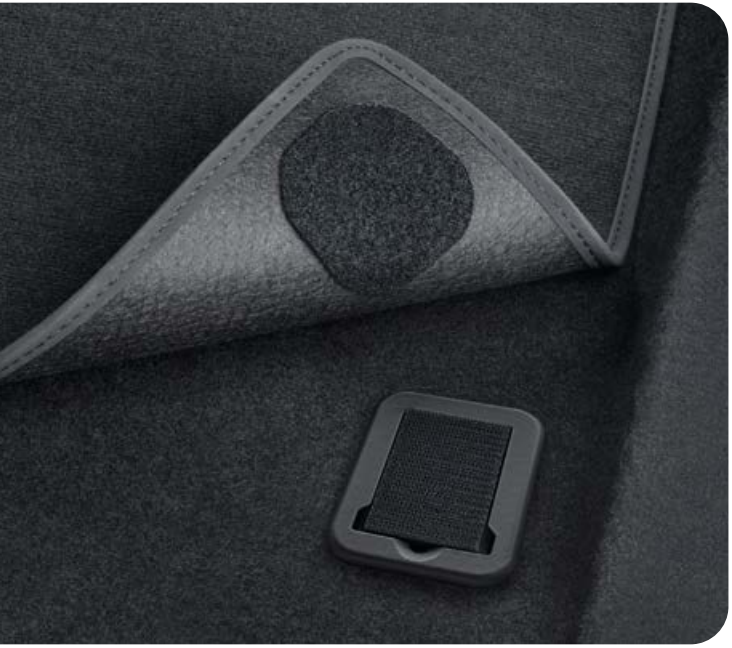

Binder SoloHook® is a durable floor mat fastening offering reliable performance and a strong, weight-saving design. Attractively priced, it is also gentle on materials and requires no counterpart on the floor covering. It enables easy and safe repositioning for cleaning purposes and is made from a single recyclable polyester material.

Binder SoloHook®

Binder FlomaFix® solutions

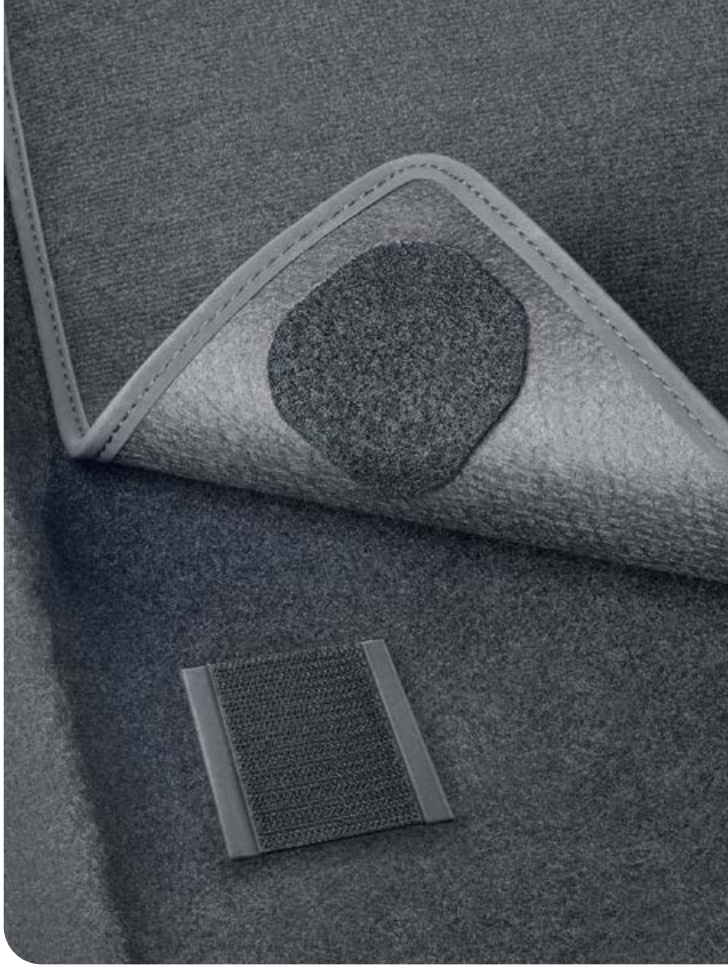

Welded repair solution

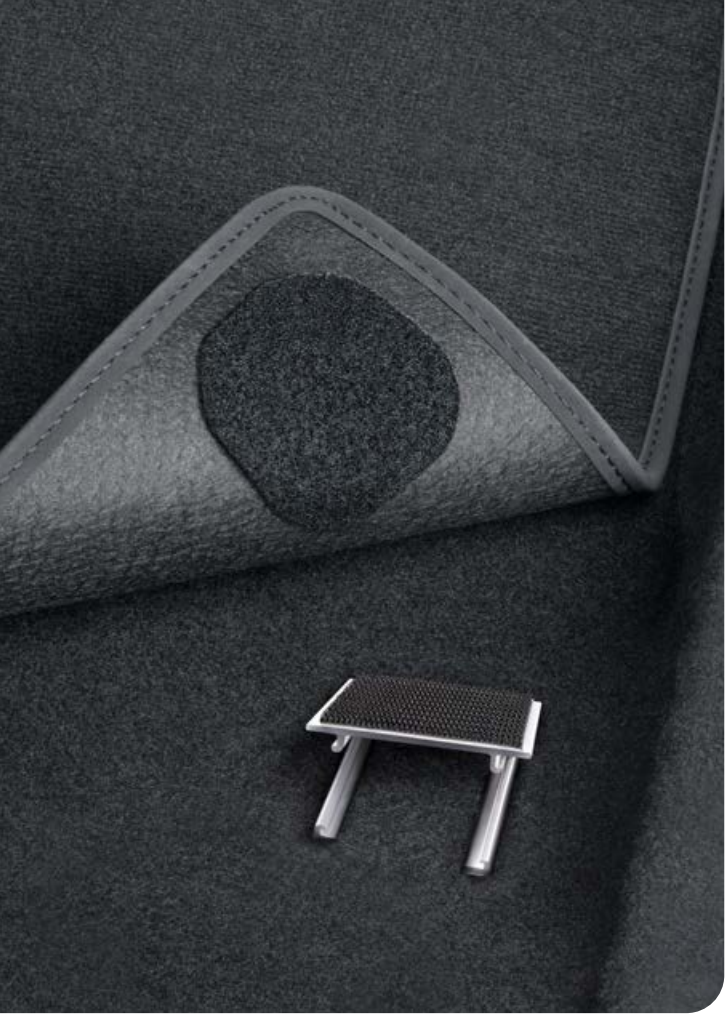

- Invisible welded solution: no need for cut-outs in the floor covering
- Easy and cost-efficient two-component repair system: the slide-in profile can be removed and replaced
- Independent of floor thickness and the substrate of the floor covering
- Short cycle times thanks to simplified installation and manufacturing for floor covering suppliers

Fully welded solution

- Invisible welded solution: no need for cut-outs in the floor covering
- One-component, cost-efficient system
- Independent of floor thickness and the substrate of the floor covering
- Short cycle times thanks to simplified installation and manufacturing for floor covering suppliers

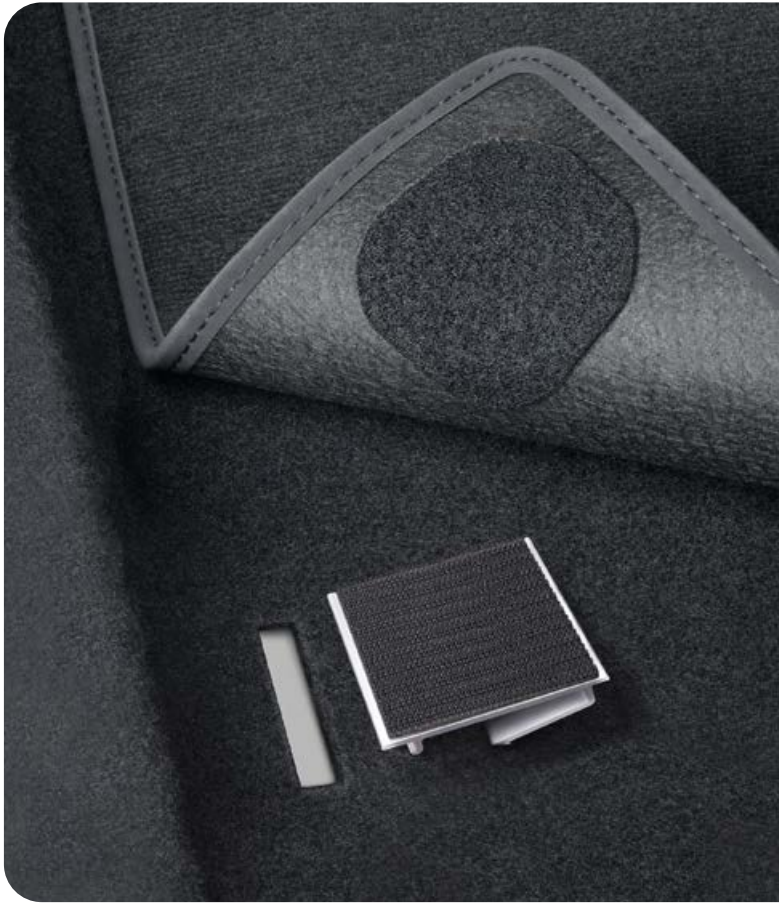

Two-component low-profile solution

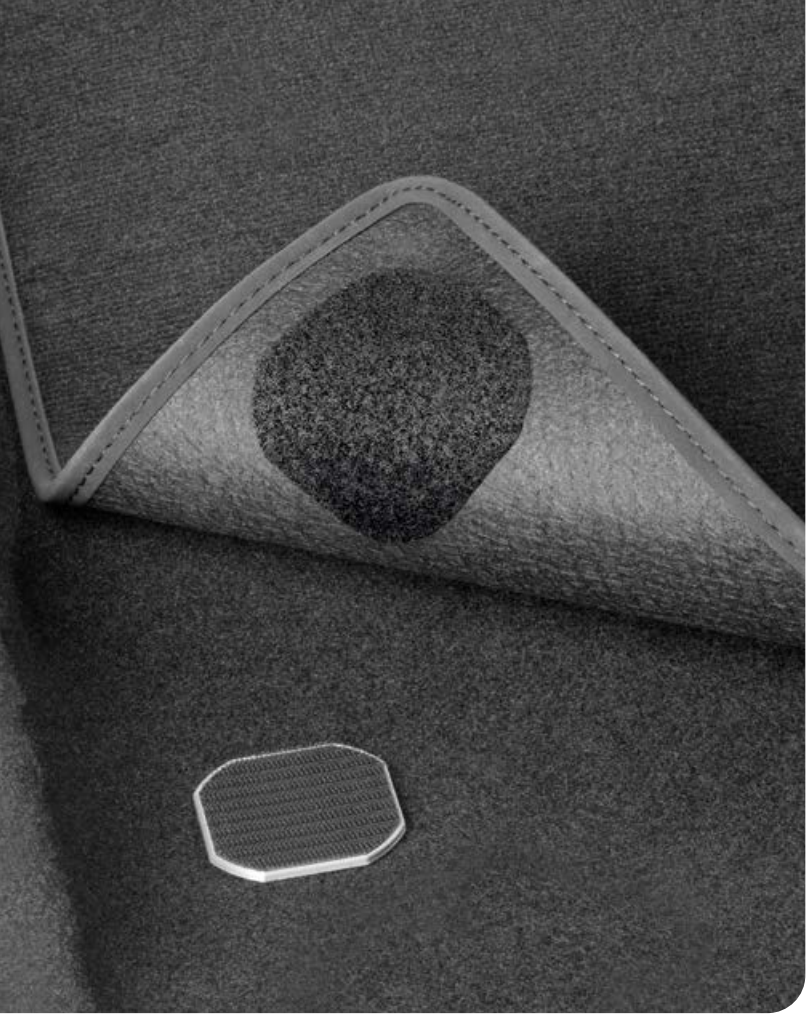

- Invisible mechanical fastening solution: no glueing or investment in welding technology needed
- Two-component repairable click or slide system for extended product life

One-component low-profile solution

- Invisible mechanical fastening solution: no glueing or investment in welding technology needed
- One-component repairable click system

Anchor repair solution

- Invisible mechanical fastening solution with over 20 years of proven success
- One-component repairable system for extended product life
- Securely anchored to the floor covering for maximum stability

Quality is a top priority for us

Whether sustainability, quality management or social responsibility – we set high standards for ourselves and also undergo external evaluation. Certificates and awards from independent institutes are very important to us and an ongoing incentive to become that little bit better.

Flame-retardant
Most of our products, regardless of their construction (with or without adhesive, as a clip or profile variant, etc.), are flame-retardant and meet requirements according to FMVSS 302.

In-house laboratory
For us, customer satisfaction and confidence in our products comes first. To meet your high standard, we conduct our own in-house laboratory tests. These tests enable us to ensure that our fastening solutions meet the highest requirements.

Binder SoloHook® solution

- Durable floor mat fastening
- Cost-efficient: no counterpart required on the floor covering
- Recyclable: made from one material (polyester)
- Strong design
- Easy and safe repositioning of the mat for cleaning purposes
- Gentle on the floor covering material
- Weight-saving
